

Civil War **TECH** *Science Adventures in History*

October 3 Bugles and Drums

Experiment with the science of sound by playing musical instruments and examining the soldiers--some as young as 10!--who took their musical talents to war.

Ages 8-12 welcome. Reservations required.

October 10 Family Day

Send Morse Code messages, test the safety of watercraft like submarines and ironclads, explore Civil War photography, and interact with Civil War reenactors who will show first-hand the science and innovation of Civil War technology.

All ages welcome, no RSVP necessary.

November 7 Photography

Today we take 1,000s of photos every minute, but Civil War photography was complicated and time consuming. Learn the basic chemistry behind Civil War photographs then develop an image of your own.

Ages 8-12 welcome. Reservations required.

Civil War Tech is a monthly program series presented by the Abraham Lincoln Presidential Library and Museum thanks to generous support from AT&T.
